

Curious about physics and related careers?

PHYSICS IN YOUR FUTURE

The Syracuse University Department of Physics invites high school students to a meeting where you can learn about

- ✓ Job opportunities for physics graduates in energy, medicine, law, the military, teaching, basic research, space, and many other areas
- ✓ What it's like to be a physics major: small classes, research opportunities with professors, and other physics students

Meet physics students and professors, ask questions, and get a tour of physics laboratories at SU. Refreshments will be served. Teachers, parents, and counselors are also welcome.

Saturday, October 17, 2009

Presentation starts at **10 AM**, wrap-up by **noon**
Room 202 Physics Building, off the main quad, SU Campus

see <http://physics.syr.edu> for map, details
